

[The database "Bibliography of the President of the Republic of Estonia"](#) , compiled by the National Library of Estonia, stores the president's speeches, articles and interviews published in print, as well as overviews of the president's public activities and publications about him. In addition, the database provides material on the activities of the president's spouse, and the Office of the President, as covered in the media.

The database covers the period of time since setting up the candidacy of the president until the end of his term in office.

The bibliography of President Lennart Meri is available as a [pdf document](#) .
