

The President, Toomas Hendrik Ilves, and Evelin Ilves organised a reception at Allegro Piano in New York; friends of Estonia and United States entrepreneurs interested in Estonia were invited to the reception.

Estonia Pianos piano factory introduced its new grand piano model, Estonia 210, at the reception organised by the President and the First Lady. The masterpiece was developed at the Tallinn piano factory, through consultations with specialists from Europe. As most of the pianos exported by the piano factory are sent to the USA, the unveiling of the piano took place in New York. Allegro Pianos has been an agent for Estonia pianos for the past 14 years, and for this reason the reception and presentation took place at the premises of the company.

At the reception, a solo concert was given on the new ESTONIA 210 piano by pianist Mihkel Poll, who has won first places in numerous international competitions.
